

# Ali Maleki

Data & Digital Transformation Consultant

MBA | PMP®

ali.maleki100@gmail.com | LinkedIn

## Career Summary

---

MBA and PMP-certified consultant with 7+ years of experience leading digital transformation, data products and enterprise delivery initiatives.

Experience spans multinational and high-growth organizations including Atlas Copco and Snapp, helping teams improve delivery execution, product governance, stakeholder alignment and data-driven decision making.

Specialized in delivery leadership, data team coaching, product strategy, Agile transformation and business-focused analytics initiatives.

**Available for fractional leadership, strategic advisory, delivery governance audits, and data team mentoring.**

## CONSULTING Services

---

- ✓ **Fractional Product & Delivery Leadership:** Embedding senior leadership to structure delivery governance, align cross-functional teams, and execute high-impact roadmaps against strategic OKRs.
- ✓ **Data Team Coaching & Capability Building:** Upskilling Data PMs, analysts, and engineers in modern product discovery, agile execution cadences, and business-value ownership.
- ✓ **Agile Adoption & Delivery Rituals:** Coaching technical teams to implement pragmatic Agile and Scrum frameworks, eliminate execution bottlenecks, and establish consistent delivery cadences.
- ✓ **Data Governance & KPI Architecture:** Establishing lightweight governance frameworks, self-serve BI ecosystems, and cascading executive metric trees linked to commercial goals.

## Experience

---

**Atlas Copco** (Brno, Czech Republic)

Project Lead, Data Products & Analytics (April 2023- Present)

- Led enterprise data transformation initiatives for Purchasing & Logistics functions across Europe and India.
- Coordinated cross-functional teams and stakeholders to improve delivery effectiveness, prioritization and business alignment.
- Led SAP-to-cloud transformation initiatives, modernizing enterprise data capabilities through Azure and Databricks platforms.
- Defined adoption KPIs and drove continuous improvement initiatives resulting in approximately 10% quarter-over-quarter growth in dashboard usage.
- Translated business strategy and stakeholder needs into actionable initiatives while balancing delivery objectives, technical constraints and measurable business outcomes.

**Snapp!** (Tehran, Iran)

(A Rocket Internet venture and the first and leading on-demand multi-service platform in Iran with 50M+ users and 3M+ daily rides.)

Data Product Manager (April 2022- April 2023)

- Led data product strategy and delivery execution for large-scale data initiatives within one of the region's largest digital platforms, aligning technology investments with business objectives.
- Led design and delivery of Snapp Order Center, supporting operational workflows for more than 500K daily users.
- Led OKR planning and delivery governance initiatives, contributing to 87% OKR attainment and improved organizational alignment.
- Enabled collaboration across business, product and engineering teams, driving prioritization, execution effectiveness and stakeholder adoption of data capabilities.

**Parspooyesh Fanavar** (Tehran, Iran)

(Iran Telecom Infrastructure Market Lead)

IT Product Owner – B2B (Oct. 2021 – March.2022)

- Led delivery of Mita, an operator-scale captive portal solution, contributing to a 45% increase in product sales within six months.
- Bridged business, engineering and commercial stakeholders to align customer needs, product priorities and execution plans.
- Defined product strategy, roadmap and execution priorities, achieving over 90% of planned product objectives.

BI Project Manager (Dec. 2020 – Oct.2021)

- Led a 7-member team delivering the nationwide ICADB (Iran Comprehensive Agriculture Database) BI initiative, achieving 96% of project objectives.
- Coordinated stakeholders, requirements, timelines, budgets, KPIs and delivery milestones to ensure successful execution.
- Developed and executed project delivery plans in accordance with contractual commitments, ensuring on-time and high-quality customer delivery.

## PDN Co. (Tehran, Iran)

(PDN is an Iranian software company focusing on developing IS solutions)

### IT Project Manager (Oct.2019 - Dec.2020)

- Delivered an automated credit-scoring engine for the Iran Mercantile Exchange, streamlining evaluation workflows for 12,000+ enterprise accounts.
- Coordinated C-level stakeholders, business teams and development teams throughout project planning, execution and implementation.
- Translated business requirements into actionable delivery plans, ensuring alignment between business objectives and technical execution.

### Senior Data Analyst (Nov.2018 - Oct.2019)

- Built data-driven solutions and KPI frameworks that improved business processes, reporting capabilities and operational decision-making across large-scale initiatives.

### Earlier Career (2009 – 2018)

- Held leadership and specialist roles across business planning, analytics, software delivery and consulting, supporting telecom, FMCG and technology organizations.
